MITOCHON
DERMOCOSMETICS

THE ACTION OF MITOCHON ON THE MITOCHONDRIA

AGAINST OXYDATIVE DAMAGE, FOR PROFOUND YOUTHFULNESS.

The mitochondrion: in the heart of the cell, lies a real energy center, responsible for cellular respiration processes, which affects oxidative stress and the skin aging process.

Thanks to the **high concentration of its active antioxidant ingredients**, in synergy with its **developed and patented P.A.S.S. technology**, MITOCHON carries out a targeted action to protect the mitochondria, significantly reducing cellular oxidation and counteracting skin aging.

MITOCHON IS CHARACTERIZED BY A **HIGH CONCENTRATION** OF THE MOST EFFECTIVE **ACTIVE PRINCIPLES**

MITOCHON has focused its scientific research on the role of the mitochondria in the processes of skin aging, **studying this process and selecting the most effective active ingredients for a profound action on the mechanisms underlying mitochondrial degradation and aging** (mitochondrial lipid peroxidation, oxidative stress, protein degeneration).

The intense color of the MITOCHON products is due to the high concentration of Coenzyme Q10.

MITOCHON'S active principles:

GLUTATHIONE

High antioxidant properties. Works at Mitochondrial activity level.

VITAMIN C

Vitamin factor with high antioxidant and restructuring properties (collagen synthesis).

COENZYME Q10

Protects membranes. It acts by neutralizing free radical species in the mitochondria.

**Vehicled with the innovative, patented P.A.S.S.®
Technology (Permeable AntioxidantS System)**

PERMEABLE
P.A.S.S.
TECHNOLOGY
ANTIOXIDANTS
SYSTEM

MITOCHON
DERMOCOSMETICS

MITOCHON researchers have managed to develop a specific technology for transcutaneous delivery, which allows for **their** optimal absorption.

The skin, in reality, acts as a barrier against external agents and reduces the absorption of the active ingredients contained in beauty creams through degradation and oxidation mechanisms.

The patented P.A.S.S. technology in MITOCHON protects the active ingredients from these phenomena, ensuring their absorption and stability.

AN EFFECTIVENESS PROVEN BY NUMEROUS CLINICAL STUDIES

Subjected to numerous clinical tests, the MITOCHON cosmeceutical line has demonstrated:

Clinical efficacy study carried out on 20 volunteers between 35 and 65 years of age.

The results show the difference in the mean of the values after 8 weeks of treatment with concentrated serum, day cream and night cream.

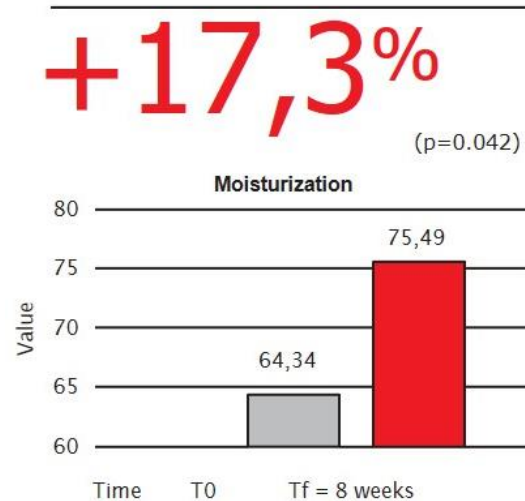

Moisturizing efficacy evaluated by **MoistureMeterSC**, Delfin; statistically significant results (p -value = 0.042).

Elasticizing efficacy evaluated by **ElastiMeter**, Delfin; statistically significant results (p -value = 0.008).

Anti-wrinkle efficacy
(Ra / Skin texture and Rspan / **Deep expression lines**)
evaluated by **Antera 3D®** with CS software, Miravex; statistically significant results (p -value = 0.047 and 0.041).

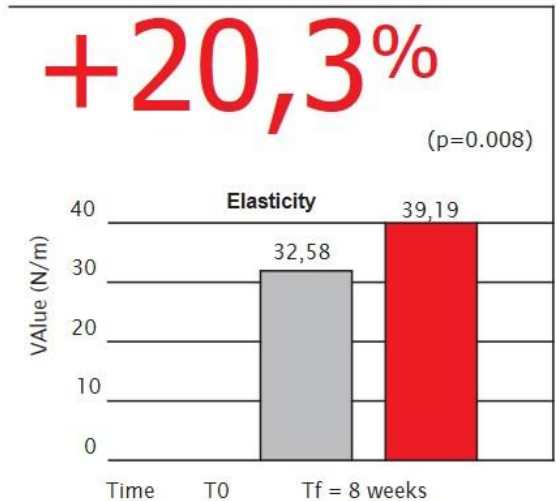

Moisturizing efficacy

(at 8 weeks)

Elasticizing efficacy

(at 8 weeks)

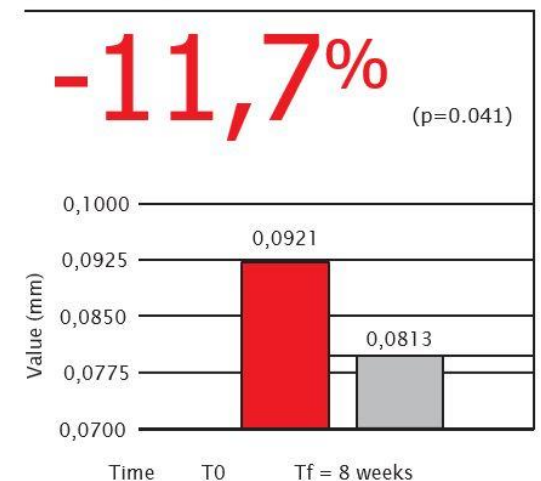

Anti-wrinkle efficacy RA (Superficial lines)

(at 8 weeks)

Anti-wrinkle efficacy Rspan (Deep lines)

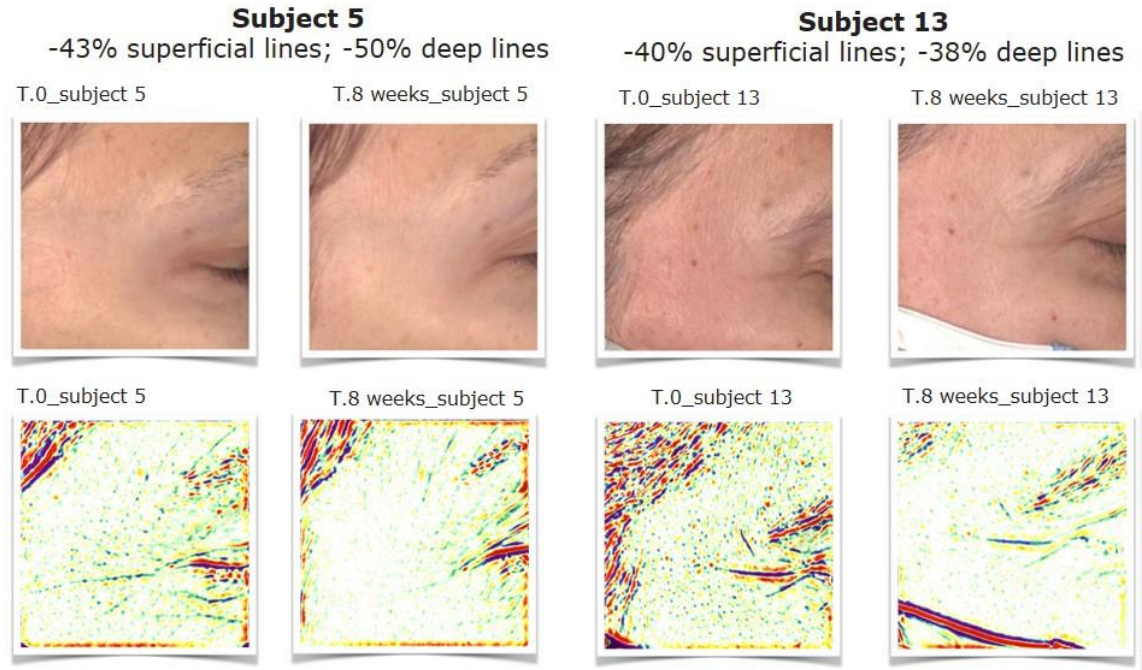

(at 8 weeks)

Significant reduction in wrinkles after 8 weeks of treatment with the MITOCHON cosmeceutical line

Digital photos of two women who participated in the clinical study on 20 subjects. Compared to the average, these are the most effective anti-wrinkle results achieved after 8 weeks of treatment with the MITOCHON line.

Examples of high-resolution and digital 3D images obtained with Antera 3D® at Time 0 and at the 8-week check for the measurement of skin texture (Ra) and deep expression lines (Rspan). Clinical study carried out on 20 volunteers aged between 35 and 65 years.

Antioxidant efficacy

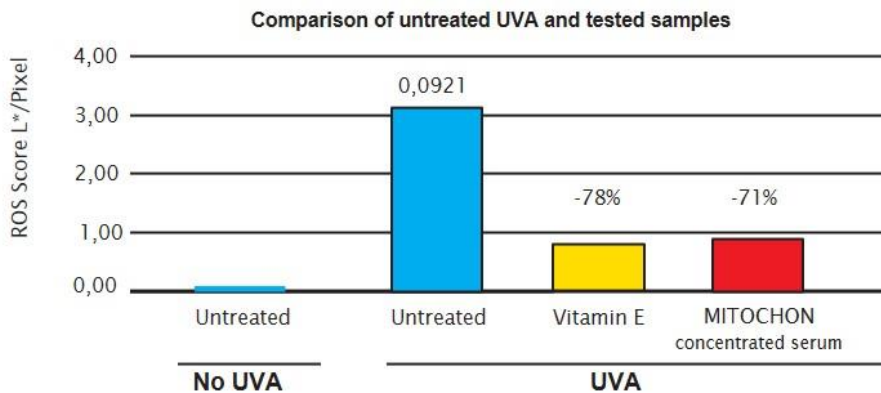

-71%

p-value < 0.01 Anova

Significant reduction in ROS (Reactive Oxygen Species)

MITOCHON Multifunctional Concentrated Anti-Wrinkle Serum Skin Protection Factor (SPF) 6 has demonstrated antioxidant activity by significantly preventing pro-oxidant activity due to UVA radiation

The antioxidant test, carried out on the serum, can be considered representative of the antioxidant efficacy of the entire MITOCHON line, since all three formulations are characterized by high concentrations of antioxidant active ingredients.

The results are excellent since the positive control used in the study is pure Vitamin E, which does not exist in such concentrations in any cosmetic on the market.

MITOCLEAN AG FACE AND HANDS SPRAY CLEANSER

FACE AND NECK

SKIN PROTECTION FACTOR (SPF) 30

€ 37

Mitoclean AG is a gentle cleanser based on panthenol with moisturizing and humectant properties, with glucoside ascorbyl mix useful for protecting the skin and improving its appearance, together with ceramides, cholesterol and phytosphingosine useful for restructuring the skin barrier.

Packaging: 120 ml bottle

MITOCLEAN AG gently cleanses with a soft and comfortable foam leaving the skin of the face and hands clean and nourished.

How to use: Dose a small amount of product on the hand and mix with a little water until a soft foam is formed, apply it on the moistened face and rinse thoroughly.

Warnings: shake well before use. Any changes in color and odor are due to the presence of natural plant functional substances. Avoid contact with eyes and mucous membranes. In case of accidental contact, rinse with water.

Ingredients: Aqua • Decyl Glucoside • Glycerin • Polysorbate 80 • Sodium Lauryl Glucose Carboxylate • Lauryl Glucoside • Sodium Citrate, Panthenol • Ascorbyl Glucoside • Sodium Cocoamphoacetate • PEG-120 Methyl Glucose Dioleate • Tocopheryl Acetate • Ceramide NP, Phytosphingosine • Cholesterol • Ceramide AP • Ceramide EOP • Sodium Cocoyl Glutamate • Citric Acid • Phenoxyethanol • Parfum • Benzoic Acid • Dehydroacetic Acid • Sodium Lauroyl Lactylate • Ethylhexylglycerin • Xanthan Gum • Carbomer •

MULTIFUNCTIONAL ANTI-WRINKLE DAY CREAM

FACE AND NECK

SKIN PROTECTION FACTOR (SPF 30)

Day Cream with a light texture, designed to restore the dermal structure by counteracting the signs of aging on the skin, while at the same time providing protection from the sun's rays.

Packaging: 50ml jar

€ 103

- ANTI-WRINKLE
- ELASTIFYING
- MOISTURIZING

MITOCHON DAY CREAM contains active ingredients with high antioxidant power such as Coenzyme Q10, Glutathione and Vitamin C which help to reduce the harmful action of free radicals.

The formulation also contains N-Acetyl Glucosamine, a precursor of hyaluronic acid which favors its endogenous synthesis, helping to restore the dermal structure. The sun protection factor

reduces the damage caused by the sun's rays. The main active ingredients of MITOCHON DAY CREAM are conveyed via the patented * P.A.S.S. (Permeable AntioxidantS System) technology specifically designed to promote the stability and absorption of substances such as Coenzyme Q10 and Glutathione.

*PATENT PENDING N. 102020000005224

How to use: Apply the product on cleansed face and neck with a light massaging action, until absorbed. The cream can be used as a base before applying make-up.

Warnings: For external use only.

Avoid contact with eyes and mucous membranes. In case of accidental contact, rinse thoroughly with water. Keep out of reach of children.

Ingredients: Aqua • Ethylhexyl Methoxycinnamate • Butyl Methoxydibenzoyl-methane • Octocrylene • Caprylic/Capric Triglyceride • Cetyl Ethylhexanoate • Ethylhexyl Stearate • Octyldodecanol • Pentylene Glycol • Cetearyl Alcohol • Dimethicone • Hydrogenated Vegetable Oil • Acetyl Glucosamine • Oleic Acid • Tocopheryl Acetate • Phenoxyethano • Ascorbyl Palmitate • Glyceryl Stearate • Sorbitan Stearate • Glutathione • Xanthan Gum • Potassium Cetyl Phosphate • Sodium Hyaluronate • Ubiquinone • Parfum • Cetearyl Glucoside • Ethylhexylglycerin • Sodium Lauroyl Lactylate • Benzoic Acid • Sodium Hydroxide • Dehydroacetic Acid • Ceramide NP • Ceramide AP • Cholesterol • Phytosphingosine • Octenidine HCl • Carbomer • Ceramide EOP

MULTIFUNCTIONAL ANTI-WRINKLE NIGHT CREAM

FACE AND NECK

Night cream with a full-bodied texture designed to counteract the signs of aging and oxidative stress on the skin such as wrinkles and expression lines.

Packaging: bottle of 30ml

Its formula contains active ingredients with high antioxidant power such as Coenzyme Q10, Glutathione and Vitamin C which help to reduce the harmful action of free radicals.

MITOCHON NIGHT CREAM also contains N-Acetyl Glucosamine, a precursor of hyaluronic acid which favors its endogenous synthesis. Folic acid is useful in protecting cells from oxidative damage.

How to use: After evening cleansing, apply the product to the face and neck with a light massaging action, until absorbed.

Warnings: For external use only. **Avoid contact with eyes and mucous membranes.** In case of accidental contact, rinse thoroughly with water.

Keep out of reach of children.

The main active ingredients of MITOCHON NIGHT CREAM are conveyed via the patented P.A.S.S. (Permeable AntioxidantS System) technology specifically designed to promote the stability and absorption of substances such as Coenzyme Q10 and Glutathione.

*PATENT PENDING N. 10202000005224

Ingredients: Aqua • Caprylic/Capric Triglyceride • Cetyl Ethylhexanoate • Ethylhexyl Stearate • Octyldodecanol • Pentylene Glycol • Cetearyl Alcohol • Dimethicone • Hydrogenated Vegetable Oil • Tocopheryl Acetate • Acetyl Glucosamine • Oleic Acid • Phenoxyethanol • Ascorbyl Palmitate • Cholesterol • Glutathione • Potassium Cetyl Phosphate • Ubiquinone • Glyceryl Stearate • Sorbitan Stearate • Parfum • Sodium Hyaluronate • Retinyl Palmitate • Xanthan Gum • Folic Acid • Cetearyl Glucoside • Helianthus Annuus Seed Oil • Ethylhexylglycerin • Sodium Lauroyl Lactylate • Benzoic Acid • Sodium Hydroxide • Dehydroacetic Acid • Ceramide NP • Ceramide AP • Phytosphingosine • Tocopherol • Octenidine HCl • Carbomer • Ceramide EOP

MULTIFUNCTIONAL CONCENTRATED ANTI-WRINKLE SERUM

FACE AND NECK

SKIN PROTECTION FACTOR (SPF 6)

Emulsified serum with a high concentration of active ingredients, designed for the treatment of imperfections related to skin aging such as wrinkles and expression lines.

Packaging: bottle of 30ml

MITOCHON Serum is a fluid formulation that contains antioxidant active ingredients such as Coenzyme Q10, Glutathione and Vitamin C in high concentrations. These active ingredients help to reduce the harmful action of free radicals on the skin, one of the main causes of skin aging.

The formulation also contains N-Acetyl Glucosamine, a precursor of hyaluronic acid which favors its endogenous synthesis.

How to use: Apply a few drops of the product on a clean face and neck, in the morning and in the evening, with a light massaging action, until absorbed. Then proceed with the application of MITOCHON Day Cream, or MITOCHON Night Cream.

Warnings: For external use only. **Avoid contact with eyes and mucous membranes.**

In case of accidental contact, rinse thoroughly with water.

Keep out of reach of children.

Folic acid is useful in protecting cells from oxidative damage.

The main active ingredients of MITOCHON Serum are conveyed via the patented * P.A.S.S. (Permeable AntioxidantS System) technology specifically designed to promote the stability and absorption of substances such as Coenzyme Q10 and Glutathione.

*PATENT PENDING N. 102020000005224

Ingredients: Aqua • Octyldodecanol • Cetyl Ethylhexanoate • Ethylhexyl Stearate • Caprylic/ Capric Triglyceride • Dibutyl Adipate • Butyl Methoxydibenzoylmethane • Octocrylene • Hydrogenated Vegetable Oil • Pentylene Glycol • Polyglyceryl-3 Polyricinoleate • Sorbitan Oleate • Acetyl Glucosamine • Oleic Acid • Tocopheryl Acetate • Ascorbyl Palmitate • Glutathione • Ubiquinone • Parfum Retinyl Palmitate • Cholesterol • Folic Acid • Helianthus • Annuus Seed Oil • Sodium Lauroyl Lactylate • Xanthan Gum • Tocopherol • Ceramide NP • Ceramide AP • Phytosphingosine • Carbomer • Ceramide EOP

€ 43

Ingredients: maltodextrin • Sweeteners: xylitol, sucralose • N-Acetyl-L-Cysteine • N-Acetyl-D-Glucosamine • Coenzyme Q10 (Ubiquinone) • Conjugated Linoleic Acid (CLA) (Contains soy and soy products) • Vitamin C (L-ascorbyl 6-palmitate) • Anti-caking agent: silicon dioxide • Resveratrol from Polygonum root (Fallopia japonica (Houtt.) Ronse Dec.) • Acidity regulator: citric acid • Aroma • Lemon (Citrus aurantium and dulcis var.dulcis Hayne) pericarp e.g., Folic acid (Pteroyl- monoglutamic acid).

MITOFAST OROSOLUBLE FOOD SUPPLEMENT WITH SWEETENER

GLUTEN FREE
NATURALLY LACTOSE FREE
CITRUS / PEACH FLAVOR

With Resveratrol from Polygonum cuspidatum with antioxidant action, N-Acetyl Glucosamine for the synthesis of endogenous hyaluronic acid and with Vitamin C for normal collagen formation.

Packaging: 30 buccal sachets (dissolves directly in the mouth, without the need for water) with low glycemic index sweeteners.

MITOFAST is a food supplement based on Coenzyme Q10, Resveratrol, Vitamin C, N-Acetyl Cysteine, N-Acetyl Glucosamine and Folic acid.

Coenzyme Q10 is an antioxidant molecule present in all the cells of our body and is involved in aerobic processes and energy production.

Resveratrol has a strong antioxidant action and is important for maintaining the physiological functioning of the body in general, and of the skin in particular.

How to use: Pour the contents of a sachet directly into your mouth. Take once a day between meals.

Warnings: Store in a cool, dry place; avoid exposure to localized heat sources, sunlight and contact with water.

The minimum storage term refers to a product that is properly stored, in an unopened package.

Vitamin C, in addition to having a known antioxidant activity, contributes to the normal formation of collagen.

N-Acetyl Cysteine is an amino acid molecule with a known antioxidant action.

N-Acetyl Glucosamine contributes to the synthesis of endogenous hyaluronic acid.

Folic acid contributes to the normal formation of amino acids and cell division processes.

COMPONENT	1 sachet	VNR %
Coenzyme Q10	100 mg	-
Resveratrol (<i>Polygonum cuspidatum</i> Siebold & Zucc., root, dry extract Tit. 98% Resveratrol)	40 mg	-
N-Acetyl Cysteine	150 mg	-
N-Acetyl Glucosamine	150 mg	-
Vitamin C	20 mg	25%
Folic acid	400 mcg	200%
